

AWT Webinars' Continuing Education Units (CEUs) Log For Certified Water Technologist (CWT) Recertification

A **Continuing Education Unit (CEU)** is a measure used in continuing education programs. Generally, a CEU is defined as hours of participation in a recognized continuing education program, with qualified instruction. CEU records are widely used to provide evidence of completion of continuing education requirements mandated by certification bodies, professional societies, or governmental licensing boards. To track credits earned from AWT webinars, you can complete the following and save it with your Recertification Application documents. The Recertification Application can be found at <http://awt.org/Certification/index.cfm>. Please be sure to note which webinars you attended. Each webinar is worth 1 CEU towards your CWT recertification total requirement of 25 CEUs in a five year period.
