## 2024 BUYER'S GUIDE

The AWT Buyer's Guide is a comprehensive list for specialized, cutting-edge technology and services used in industrial water treatment. Designed as an easy-to-use reference categorized by chemicals, equipment, and services, the guide catalogues suppliers that can provide everything you need to successfully compete in the water treatment arena. Save valuable time and energy; let your fingers do the walking through this all-inclusive supplier directory! We hope you find it beneficial.

**FOR MORE INFORMATION,

# EXPLOSION PROOF DIAPHRAGM PUMP

When safety, compliance, and reliability matter the Pulsatron X Explosion Proof metering pump provides safe feed of chemical into your process. Pulsatron X's hazardous location ratings indicate its exceptional durability to manage internal explosions, enabling dependable and accurate chemical metering in a secure and reliable manner.

## Classified for Hazardous Locations

- Ideal for chemical dosing applications that require remote control in hazardous locations.
- Meets hazardous location rating, for facilities that deal with hazardous material in the environment such as flammable gases.
- Aluminum housing is rugged and is designed for high corrosion resistance.
- Integrated automatic controls: The 4-20mA input or external pulse input option is integrated into the pump on Pulsatron X which eliminates the need for an extra device and external enclosure.
- Manual control with on-line adjustable stroke rate and stroke length.
- Simple substitution of competitors in the field: No need to re-drill mounting holes.

Pulsatron X is built on the foundation of the industry leading Pulsatron Series of pumps known for high reliability, easy maintenance, and lasting performance providing years of dependable service.

**A Pulsatron pump for any Application**

Dayton, OH 45414  
(937) 461-8833  
cheryl.anders@ameriwater.com  
www.ameriwater.com

AmeriWater is an industry leader in the design, manufacture, installation and supply of water purification systems and services for commercial and industrial applications. We work closely with our clients to solve the complex challenges related to water quality requirements, to increase productivity, reduce costs and produce the highest quality products. Our wide range of products include high-efficiency cooling tower water filters, reverse osmosis systems, complete water systems that include water softeners, carbon filters, ROs, deionizers, repressurization pumps, and storage tanks. In addition, we also offer a deionization exchange service for resin tanks.

## AMSA, Inc.

4714 S Garfield Rd

(989) 662-0377  
(989) 662-0377  
janice@amsainc.com  
www.amsainc.com

AMSA, Inc. manufactures both liquid and solid products used in industrial cooling water treatment. AMSA chemistry is designed to go to surfaces, penetrate organic deposits, and release those deposits into the bulk water. When used with an oxidizing or non-oxidizing biocide, AMSA chemistry provides an effective Biofilm Control Program (BCP™). AMSA BCP™ liquid products are in the BCP® 1000, BCP® 2000 and BCP® series. BCP® solid slow release tablets are designed to treat smaller systems and BCP® 5000 series products are used in geothermal utilities to inhibit and remove sulfur deposits.

## Aqualytics

### CarboNet Nanotechnologies

301 980 George St  
Vancouver, BC V6A0H9  
(778) 957-1157  
cecillia@carbonet.com  
www.carbonet.com

CarboNet® uses advanced materials to help industrial brands and operators treat their wastewater, selectively removing contaminants or reclaiming valuable mineral resources. As freshwater becomes increasingly scarce and regulated, companies from energy and mining to food and beauty turn to CarboNet to reduce, recycle, and renew the water they need to compete. CarboNet's signature product, a pre-activated flocculant named SimpleFloc™, is orders of magnitude more effective at liquid-solid separation than commodity wastewater treatment, all while removing the need for make-down. SimplePrime™ is CarboNet's coagulant.

### Chem-Met Company

PO Box 819  
Clinton, MD 20735-2295  
(301) 868-3355  
(301) 868-8946  
bhickey@chem-metco.com  
www.chem-metco.com

We are a third-generation company producing quality material at competitive prices, manufacturer of sodium molybdate dihydrate & sodium molybdate 35% solution. Shipping points from Clinton, MD, and Compton, CA.

### Commonwealth Chemical Specialties, LLC

27 Apple St  
Tinton Falls, NJ 07724  
(781) 421-3038  
lcorbett@commonwealthchem.com  
www.commonwealthchem.com

Commonwealth Chemical Specialties, LLC is a supplier of specialty water treatment products. We are a distributor of top specialty water treatment products manufactured by leading water treatment chemical manufacturers. We strive to provide high quality water treatment products and knowledge/training to the water treatment service companies.

### Connect Chemicals USA LLC

219 Roswell St, Ste 250  
Alpharetta, GA 30009  
(770) 559-3417  
lane.kunberger@connectchemicals.com  
www.connectchemicals.com

As a worldwide operating manufacturer and distributor of specialty chemicals, Connect Chemicals is dedicated to excellence in every area of its business—using knowledge, technology and communication to provide our customers superior consumer understanding with the highest quality products and service. In addition to manufacture, sourcing, and distribution of specialty chemicals, a further core competency of our company is contract manufacturing. The company currently owns five production sites, four in China and one in Germany. With expertise in the sourcing and distribution of chemicals, combined with an efficient logistic and supply chain, Connect Chemicals provides their clients with a full range of chemical specialties—from their own production sites or as representatives of renowned chemical manufacturers. The company also ensures compliance with local and global legal requirements, e.g. REACH and GHS.

### Cyrus Rice Water Consultants, Inc.

1200 4th Ave  
Coraopolis, PA 15108  
(412) 670-2880  
support@cyrusrice.com  
www.cyrusrice.com

With headquarters in Pittsburgh, Pennsylvania, Cyrus Rice Water Consultants (CRC) traces its history to the original C. W. Rice Company founded in 1916. CRC offers years of water treatment experience and expertise to its clients. We offer consultative services such as expert witness, metallurgical failure analyses, specification writing, and more for the water treatment industry and have the ability to solve routine and non-routine problems. We have a full service laboratory to support our consultants in the conclusions and recommendations they make.

**Your Success Is Our Passion**

### Eastern Technologies, Inc. (ETI)

60 Thousand Oaks Blvd  
Morgantown, PA 15543  
(610) 286-2010  
gary.reggiani@go2eti.com

ETI is a provider of cutting-edge specialty additives and related technical support services to independent water treatment professionals. We support only service companies and do not sell directly to the end-user. Our business goal focuses on supporting the success of our customers. As your trusted water treatment specialist, we deliver customized, cost-effective, and sustainable solutions when you need to fix problems. ETI offers training options to empower your expertise as we believe knowledge is a key differentiator to effective water management. Join the journey toward smarter water solutions while learning, growing, and leading with ETI as your partner.

### Ecowaterlab Solutions

2476 Blvd. des Entreprises  
Terrebonne, QC J6X 4J8  
CA  
(514) 227-3277  
info@ecowaterlab.com  
www.ecowaterlab.com

Ecowaterlab manufactures purified tannins, offering the highest purity available on the market at the lowest price for water treaters. No middle man, straight from the producer. Private label possibilities. Online Energy analysis app. Looking for Partners and Distributors. Ecowaterlab purified tannins and special blends are used for steam boilers and closed loop water treatment, also suitable for aluminum boilers water treatment and some waste water treatment applications. Ecowaterlab green chemistry allows steam boilers to run safely, continuously, at the highest concentration cycles (8000-10,000 micromhos) with no carry-over, giving energy savings through water treatment without investment.

### Fineamin SA

slamere@marlo-inc.com  
www.marlo-inc.com

We are a designer and manufacturer of a broad line of commercial and industrial water treatment equipment including water softening, reverse osmosis, media filtration, dealkalization, condensate polishing, and deionization technologies.

### Metal Samples Co.

152 Metal Samples Rd  
Munford, AL 36268  
(256) 358-4202  
msc@alspi.com  
www.metalsamples.com

Metal Samples offers a full range of corrosion monitoring systems, including corrosion test coupons, holders, insertion systems, test racks, bypass systems, corrosion probes, and corrosion instruments (portable meters, transmitters, data loggers). We also offer a complete line of chemical injection and hydrogen monitoring equipment.

### Myron L Company

2450 Impala Dr  
Carlsbad, CA 92010-7226  
(760) 438-2021  
info@myronl.com  
www.myronl.com

For over 65 years, Myron L® has been a leading manufacturer of water quality instrumentation. Because we're a privately held, customer-focused corporation, we can remain committed to excellence in accuracy, reliability, and simplicity, while investing heavily in research and development. The result is a product line with powerful, innovative multi-parameter monitor/controllers, handheld meters, and pocket testers built to last with convenient features like touchscreens and Bluetooth® connectivity. Let us help you precisely analyze and manage critical measurement parameters, including conductivity, resistivity, TDS, salinity, pH, ORP, free chlorine equivalent, dissolved oxygen, nitrate concentration, hardness, alkalinity, temperature, flow, % rejection, and more!

### North Metal & Chemical Company

609 E King St  
York, PA 17403-1985  
(717) 845-8648  
(717) 846-7350  
dfitzgerald@northchem.com  
www.NorthChem.com

North Metal & Chemical Company has manufactured sodium molybdate in York, Pennsylvania, since 1921. Over several decades, we have added a full offering of industrial water treatment chemistry, aimed at boiler and cooling tower treatment. NorthQuest is now the most reliable brand of azoles, amines, phosphonates, and polymers—becoming the primary source for AWT membership. North Metal & Chemical is committed to supporting our loyal clientele with guaranteed stock availability, even in the most tumultuous supply chain periods. Four generations of Family-owned commitment – North is the kind of supplier that you love to support.

### Peabody Engineering, LLC

230 Financial Blvd  
Liberty, SC 29657  
(951) 262-8700  
(951) 734-4111  
Mark.P@4Peabody.com  
www.4Peabody.com

Intuitively designed water and chemical tanks, process systems, custom designed products and accessories with qualified professional service. Manufacturer of Gemini Dual Containment® Tank Systems, ProChem® Single Wall Open and Closed Top Process Tanks, Aquarius Tapered Chemical Feed Systems, and PCS Pump Containment Enclosures from single pumps to multi-pump and process equipment/piping systems enclosures all designed to protect against leaks and spills and keep equipment secure. Clamshell funnels, instrumentation, and related products are specifically designed for the water treatment industry. Two manufacturing locations in Corona, CA, and Liberty, SC, better serve customers from coast to coast.

### ProMinent Fluid Controls, Inc.

136 Industry Dr  
Pittsburgh, PA 15275  
(412) 787-2484  
militello.ian@prominent.com  
www.prominent.us

ProMinent Fluid Controls, Inc. offers the highest quality metering pumps, disinfection systems, polymer preparation systems, metering systems for solids, instrumentation for monitoring, measurement, and control, and complete systems. Our successes include applications in potable water and wastewater treatment, food and beverage, oil and gas, swimming pool, and many other industries. All internal processes are certified in accordance with ISO 9001:2000, ensuring the highest standard of quality in both manufacturing and customer service.

### **Pulsafeeder, Inc.**

27101 Airport Rd  
Punta Gorda, FL 33982  
(941) 575-3800  
kreid@idexcorp.com  
www.pulsafeeder.com

Pulsafeeder, Inc. manufactures water treatment controllers, chemical metering pumps, and accessories to keep your process running safely and efficiently. We implement technology such as toroidal probe: no annual replacements, no calibration, no expensive service calls, no probe fouling, and no guessing if the readings are correct; communications-enabled controllers: receive live readings, alarm notifications, and even change your controller settings; remote configure controllers: quick, easy, error-proof, and customizable, installs in less than five minutes. With our global network of representatives and distributors, Pulsafeeder assures that products and local support are available for total customer satisfaction. Save valuable service time, money, and downtime with Pulsafeeder.

**Rapid Testing. Reliable Results.**

### **Q Labs, LLC**

1930 Radcliff Dr  
Cincinnati, OH 45204  
UM  
(513) 471-1300  
dbowen@qlaboratories.com  
www.qlaboratories.com

Q Labs operates as a third-party, independent testing laboratory specializing in water testing and other microbiological and analytical testing for a wide variety of end-use applications. We are CDC-ELITE certified, FDA-registered, ISO-accredited, AOAC, MicroVal, and AFNOR certified as an Expert-Status lab (the only testing lab in North America to hold all three of these prestigious certifications). Our company was founded in 1966.

### **QualiChem, Inc.**

PO Box 926  
Salem, VA 24153  
(919) 376-5569  
(540) 375-3880  
dburroughs@qualichem.com  
www.qualichemwt.com

QualiChem is a private label formulating manufacturer of water treatment chemicals with coverage across North America. QualiChem was recognized by the AWT membership in 2016 as Supplier of the Year for outstanding customer service, quality of product, and contributions to the industry. Our ISO 9001:2015 processes, technical and sales support by our multiple CWT's on staff, and our "no direct sales" approach, results in a product offering for regional sales and service companies unparalleled in the industry. Contact us to see why The Blender Matters.

(440) 572-2278  
jbihn@scrantonassociates.com  
www.scrantonassociates.com

Scranton Associates Inc. offers high-quality water treatment products and custom chemical blends made to your specifications. Our services include technical and regulatory assistance, exceptional freight rates, and expert assistance in developing and improving your formulas and SDS services. We are a family-owned company, celebrating over 100 years and four generations of excellence. Previous AWT Supplier of the Year recipient.

### **Seko Dosing Systems Corp.**

913 William Leigh Dr  
Tullytown, PA 19007  
(267) 606-3960  
a.pierro@sekousa.com  
www.sekousa.com

Seko Dosing Systems Corporation is dedicated to providing a superior range of quality, state of the art chemical dosing pumps, equipment, and controllers to the water treatment industry utilizing a network of regional distributors in the U.S.

### **SSC Industries**

1550 E Taylor Ave  
East Point GA, GA 30344  
(404) 559-6000  
laura@sscindustries.com  
www.sscchem.com

SSC Industries has been in the chemical industry since 1930 and is still operating today at the same site. With one of the largest arsenals of chemical formulations in the industry, SSC Industries is able to quickly solve process issues with proven technologies. Our talented and flexible staff utilizes our diverse manufacturing facility to create formulations for customers that meet very specific criteria. Let SSC troubleshoot your next chemical or process issue.

### **Stenner Pump Company**

3174 DeSalvo Rd  
Jacksonville, FL 32246  
(904) 641-1666  
(904) 642-1012  
aadams@stenner.com  
www.stenner.com

We are a veteran-owned U.S. manufacturer with three-day lead time. Established in 1957, the Stenner Pump Company manufactures peristaltic metering pumps for reliable and accurate injection to treat problem water or inject additives into an industrial or manufacturing process. The self-priming pumps do not vapor lock or lose prime and offer simple tube replacement. Some pump lines are available as a tank system or meter system, pre-assembled for quick installation. Also available are flow indicators, flow switches, water meters, 7.5, 15 and 30-gallon solution tanks, and custom OEM pumps.

### **Taylor Water Technologies LLC**

31 Loveton Cir  
Sparks, MD 21152  
(410) 472-4340  
cgolden@fluidra.com  
www.taylorstechnologies.com

We offer water test kits, reagents, and standard solutions. Manufacturer of the TTI 3000 Colorimeter. Drop tests a specialty; color-matching tests and Myron L meters also available. Custom kits and labeling offered. Ask about AWT discount. ISO 9001:2008 certified.

WATER TREATMENT NETWORK

### **The Tannin Guys / TGWT**

452 Jean-Neveu St  
Longueuil, QC J4G 1N8  
CA  
(844) 390-8498  
vmartin@tgwt.com  
www.tanninguys.com

TGWT co-founded The Tannin Guys®, a large-scale global network of distributors and experts. TGWT is a pioneer in purified tannin water treatment for steam boilers and closed-loops. One of their products is OMRI approved for organic production. TGWT is fully committed to its distribution network by providing them with many tools to be more successful and by supporting them in the field. The Clozit platform enables partners to quickly make bids that stand out from competitors by showing energy, water, and GHG savings. One mission: Making water treatment simple, sustainable, profitable.

### **USALCO**

2601 Cannery Ave  
Baltimore, MD 21226  
(706) 525-4209  
thildebrandt@usalco.com  
www.usalco.com

USALCO is the premier manufacturer of various aluminum-based chemicals, such as aluminum sulfate, sodium aluminate, polyaluminum chloride, aluminum chlorohydrate, and aluminum chloride for industrial and municipal markets.

USALCO's Polyaluminum Chloride (PACL) products fall under the trade name DelPAC®. These coagulants have become the products of choice in well over 1,000 water treatment applications throughout the US (sold direct or through distributors).

USALCO's research and development staff is committed to continuous innovation of new coagulant chemistry to address the ever-changing regulatory landscape. Coupled with our on-site application expertise, USALCO is uniquely positioned to meet the increasing customer demand for improved treatment results at a lower total cost.

Our company headquarters is in Baltimore, Maryland which is also the site of the largest aluminum coagulant manufacturing plant in North America. USALCO operates 26 facilities throughout the United States.

### **Vector Industries, Inc.**

531 W Newhall Ave  
Waukesha, WI 53186  
(262) 542-4550  
sue@vector-industries.com  
www.vector-industries.com

Vector Industries is a leading provider of innovative industrial solutions for water treatment companies of all sizes. Our extensive range of top-of-the-line equipment includes a variety of bypass feeders, brominators, injection quills, and corrosion coupon racks. Plus, our newest product offerings, like our advanced automated glycol feed systems, seamlessly integrate with building automation systems for easy alarm notifications and inventory control. Proudly made in the USA.

### WaterColor Management

251 Johnston St SE, Ste 404  
Decatur, AL 35601  
(256) 260-0412  
karen@watercolormanagement.com  
www.watercolormanagement.com

We offer insurance underwriting and agency placement. Coverages include: product liability, general liability, spill/pollution clean-up, professional liability, property and inland marine, workers' compensation, and other insurance. All policies are designed specifically for commercial and industrial water treatment companies.

### Watson-Marlow Fluid Technology Group

37 Upton Technology Park  
Wilmington, MA 01887  
(214) 882-0041  
pam.simmons@wmfts.com  
www.wmftg.com

Watson Marlow Fluid Technology Solutions is revolutionizing chemical feed with the Qdos pump, featuring a unique design with patented ReNu™ pump head technology. The Qdos provides accurate and repeatable flow for a wide range of chemicals and viscosities, requiring no tools for maintenance. The contained pump head design with integral leak detection reduces waste and eliminates operator exposure to chemicals. Distinguished by innovation, WMFTS manufactures peristaltic and hose pumps for use in all industries, including industrial water and wastewater treatment. Watson Marlow offers unrivaled solutions, including complete skid mounted systems.
